## PROJECTS

---

### Portofolio Websites

- Designed and built a personal portfolio website with React.js and Tailwind CSS to highlight academic projects and technological skills.
- Smooth navigation and responsive design are implemented to ensure optimal display on all devices.
- The website was launched via GitHub Pages, a professional platform for publicly displaying portfolios and documents for interested parties.

### Healthy Beverage Online Store Website

- Developing a full-stack website for an online healthy beverage store using React.js, Node.js, and MongoDB.
- Integrated features including product search, beverage flavor filtering, and shopping cart functionality result in a smoother purchasing experience.
- Create user authentication and authorization to enable secure login, customizable features, and order tracking.

### News Portal Website

- Developing a web-based news portal with React.js, Node.js, and MySQL to provide the latest information on various topics.
- Dynamic categories for news have also been added, along with search functionality and user input.
- Enhancing user experience with responsive design and real-time updates.

## CERTIFICATE

---

- Software Development (BNSP)
- Fundamental of Flutter Certification (Course-Net Indonesia)
- Mentor Masterclass 1.0 training (Micromentor by Mercy Corps)
- TOEFL Prediction Test (Language Institute of Bina Sarana Informatika University)

## SKILLS

---

### Soft Skill

- Solid problem-solving skills.
- Effective communication and teamwork.
- Eager to learn and adapt to new technologies.
- Time management and organizational skills.

### Hard Skills

- Web Development (HTML, CSS, JavaScript, Python, SQL, MongoDB).
- Python Programming (Including Odoo Framework).
- SQL & Database Management.
